Version 1.1 · Last updated 18 August 2026

01 Introduction

This chatbot is operated by the company that owns and operates this website ("the Company") in collaboration with Dialog Intelligens ApS as the technical provider. We are committed to protecting your personal data and to processing it in a lawful, fair, and transparent manner.

This chatbot is an artificial intelligence system. Replies are generated automatically by AI and not by a human, unless the conversation is explicitly handed over to a human agent, in which case you will be told.

05 Use of AI and infrastructure

Chat messages are processed on Dialog Intelligens systems hosted within the European Union. To generate chatbot replies, Dialog Intelligens may use carefully selected AI service providers acting as sub-processors under written data processing agreements and strict technical safeguards. All processing takes place within the European Union and the European Economic Area. We do not transfer your personal data to countries outside the EU/EEA.

Access to chatbot data is restricted to authorised personnel who need it to operate, support or improve the service.

07 Data retention

Chat data is stored for up to 12 months for support, quality assurance and analytics, unless the Company instructs a shorter retention period. After this period, the data is deleted or irreversibly anonymised. Aggregated statistics that do not contain personal data may be kept for longer.
